“The Children’s Hospital at Home

Information for General Practitioners, Practice Nurses, School Nurses, parents other Healthcare Professionals

“Improving outcomes for children and young people with asthma”
Who is it for?
- Children and young people 2-18 years who have a Croydon GP.
- Any child attending A&E or Urgent Care, or who is admitted to hospital for asthma or wheeze.
- Children whose asthma is poorly controlled
- Children and families who require education re: asthma management, to avoid further A&E attendances.
- To be a resource for healthcare professionals

What do we do?
- A single home visit
- Assessment
- Medication reviews
- Inhaler technique checks
- Asthma Action Plans
- Education to improve self management skills
- Training for health professionals

Who can refer?
- Health Care Professionals
- Schools
- Self-referrals
  [following discussion with GP]

What is our aim?
Providing a one-to-one single intervention to support children and young people and their families to self-manage their asthma.
Offer information about their asthma, and provide clinical expertise and education.

We work in conjunction with:
- GP’s
- Practice Nurses
- A&E’s and Urgent Care Centres
- Primary Care Networks
- Social and Health Care providers
- Health Visitors
- School Nurses
to further educate patients, and promote awareness of asthma in children.
